Cable Jetting Equipment

Plumett UltimaZ P2P-V20

The UltimaZ® P2P-V20 is ideal for pushing and jetting Enterprise MicroCables and ABF cables into standard or riser-rated single, or bundled FuturePath MicroDuct products. It is powered by common electric corded and cordless drills. The UltimaZ can be outfitted with inserts to accept Enterprise MicroDucts (5 mm, 7 mm, 8 mm, 8.5 mm, 12 mm, 12.7 mm OD) and cables ranging from 1 - 4.5 mm OD.

Plumett MicroJet

The MicroJet® PR-196 is ideal for pushing and jetting Enterprise MicroCables and ABF cables into standard or riser-rated single, or bundled FuturePath MicroDuct products. The MicroJet can be outfitted with inserts to accept typical Enterprise MicroDucts (5 mm, 7 mm, 8 mm, 8.5 mm, 12 mm, 12.7 mm OD) and cables ranging from 1 - 8.5 mm OD. Other MicroJet models and inserts available.

Plumett MiniJet

The MiniJet® is ideal for Enterprise applications where larger micro or conventional optical fiber cables are being placed in ducts up to 1.66" (42 mm) OD, or FuturePath and single MicroDuct sections, such as feeder routes between structures in a campus or MDU environment. The MiniJet is a highly versatile jetting machine that is available with a pneumatic drive system.
